Mohamed Diaa El-Din Samy

FULL-STACK DEVELOPER

Cairo, Egypt | +201068646465 | mdiaad03@gmail.com
GitHub: github.com/mdiaad03-cloud | LinkedIn: mohamed-diaa-dev

Professional Summary

Full-Stack Developer and third-year Computer Science student at Badr University in Assiut, enrolled in 2024 and expected to graduate in 2028. Builds end-to-end applications using React, Node.js/Express, ASP.NET Core, SQL Server, and MongoDB, with experience in REST API development, database design, application security, payment and shipping integrations, testing, debugging, and deployment.

Education

Badr University in Assiut – Computer Science **2024 – 2028**
First-Year GPA: 3.3 | Relevant Coursework: Web Development, Cybersecurity, Software Testing, Data Structures

Work Experience

C2A LAP – Full-Stack Developer **Nov 2025 – Present**

- Engineered a full-stack laptop e-commerce platform and admin dashboard with end-to-end product, order, sales, expense, and profit workflows.
- Improved website performance by **16%**, delivering a faster, more responsive shopping experience.
- Built modular Node.js/Express REST API services for authentication, users, products, sales, orders, shipping, and storefront settings.
- Integrated **Paymob, InstaPay, cash on delivery, Bosta shipping, WhatsApp/email notifications**, and Excel inventory import/export to connect customer checkout with operational workflows.
- Strengthened application security with **JWT authentication, RBAC, CSRF protection, password hashing, rate limiting, input sanitization, and SSRF mitigation**; deployed the platform on Railway.
- Delivered product search, cart, checkout, order tracking, bilingual Arabic/English UI, and dark/light themes; added sales analytics to improve visibility into revenue, expenses, and profitability.

Projects

Donation Call-Center and Odoo ERP Integration API **Oct 2026**

- Integrated a donation call-center with Odoo ERP using Transactional Outbox and Integration Inbox patterns.
- Designed REST APIs for batched event polling/acknowledgement, versioning, event IDs, and idempotent processing; handled failed/out-of-order events and atomic bank-deposit allocation across receipts.

C# Windows Forms Application **Oct 2025**
Developed a Windows desktop application using C# Windows Forms with SQL Server database integration.

Training & Courses

El Orman Charity Association – Technical Training **Summer 2024; Summer 2026**
Summer 2026: Worked on donation call-center/Odoo ERP integration, REST API event processing, and bank-deposit allocation.

Digital Egypt Pioneers Initiative (DEPI / El Rowad), Round 5 – AST **Jun 2026**

National Bank of Egypt – Trainee **Jan 2025**
Exposure to enterprise banking systems and financial-data workflows.

Orascom – Trainee **Aug 2024**
Exposure to telecommunications infrastructure and software development practices.

Certifications

CS50 (ITI) | ITI Certificate | Python Training – Microsoft (Spring online program) | Microsoft Training | C++ Problem Solving

Achievements

ICPC / ECPC Qualifier – Aug 2026

Technical Skills

Core: Full-Stack Development, C#, JavaScript (ES6+), React, Node.js, Express.js, ASP.NET Core Web API, REST APIs
Databases: SQL Server, SQL, MongoDB Atlas, EF Core, LINQ, Database Design
Frontend: HTML5, CSS3, Tailwind CSS, Vite, Axios, Framer Motion
Security & Testing: JWT, RBAC, CSRF, bcrypt, Rate Limiting, Input Validation, SSRF Protection, Unit Testing, Debugging
Cloud & DevOps: Git/GitHub, CI/CD, Docker, Kubernetes, Azure, AWS, Microservices, Railway
Integrations: Odoo ERP, Paymob, Bosta API, WhatsApp API (UltraMsg), Nodemailer, Excel Import/Export
Other: C++, Python, Agile/Scrum

Personal Skills & Languages

Problem-solving, communication, teamwork, time management, organization, fast learning, attention to detail.
Arabic: Native | English: Good
