

Mohamed Diao El-Din Samy

Full Stack Developer

 Cairo, Egypt  Badr University in Assiut  github.com/mdiaad03-cloud  [LinkedIn Profile](#)  mdiaad03@gmail.com

PROFESSIONAL SUMMARY

Motivated **Full Stack Developer** with hands-on experience in the **MERN stack** (React, Node.js, Express, MongoDB). Strong analytical and **problem-solving skills** developed through competitive programming in **C++**, with qualification for the **Egyptian Collegiate Programming Contest (ECPC)**. Experienced through training at leading Egyptian institutions including the **National Bank of Egypt** and **Orascom**. Currently pursuing a degree at Badr University in Assiut with a commitment to building scalable, high-quality web applications.

EXPERIENCE & TRAINING

National Bank of Egypt

Trainee

- Gained exposure to enterprise-scale banking systems and financial data management workflows
- Collaborated with professional teams on operational processes within Egypt's largest public-sector bank

Orascom

Trainee

- Participated in structured training on telecommunications infrastructure and modern software development practices
- Developed understanding of large-scale system architecture within a multinational corporation

El Orman

Trainee

- Applied practical skills through comprehensive hands-on training and professional collaboration
- Contributed to real-world projects and operational workflow optimization

PROJECTS

C2A LAP — Full Stack E-commerce Dashboard & Store

- Built a complete full-stack web application with **React** frontend and **Node.js/Express** backend
- Implemented **RESTful API** architecture with **MongoDB** for data persistence
- Developed an Admin Dashboard for product/order management and a responsive storefront UI
- Integrated user authentication and authorization workflows
